

# Examens médicaux pour pilotes classe 1

Our aeromedical center provides examinations for issue, revalidation and renewal of medical certificates class 1

These examinations and the medical criteria applied will be performed accordingly to directive EU 1178/2011 (EASA)

## Examination initial (issue) certificate class 1

For an initial (issue) examination the applicant shall provide

- the application form for medical examination (medical history,...)
- results of blood analysis - please use form "Biology pilot class 1"
- an ophthalmologic examination report using the "Ophtalmology examination report" form
- an ORL examination report using the "ORL examination report" form
- the signed "Decrease in medical fitness" declaration

The candidate also has to undergo a psychological evaluation

## Examination revalidation or renewal certificate class 1

For every revalidation or renewal examination the applicant shall provide

- the application form for medical examination (licence number, flight hours, medical history,...)
- results of blood analysis - please use form "Biology pilot class 1"
- certificate with refractive values if wearing corrective lenses
- an ophthalmologic examination report if necessary
- the signed "Decrease in medical fitness" declaration
- the following documents: flight licence and last medical certificate

An ophthalmological examination review should be undertaken

- 5 yearly if the refractive error is +3.0 to +5.0 or -3.0 to -6.0 dioptries or if there is astigmatism or anisometropia of more than 2 dioptries but less than 3 dioptries
- 2 yearly if the refractive error is greater than -6.0 dioptries or if there is astigmatism or anisometropia of more than 3.0 dioptries

## Important informations concerning ophthalmologic examination

The examination has to be done by a certified doctor figuring on the "Ophtalmologic examiners" list

The examination has to be done without and with corrective glasses, so do not wear contact lenses for this examination

Please provide the "Ophtalmology examination report" form

**Price for an ophthalmologic examination is 362.00 euros**

## Important informations concerning ORL examination

The examination has to be done by a certified doctor figuring on the "ORL examiners" list

# Examens médicaux pour pilotes classe 1

Please provide the "ORL examination report" form

**Price for an ORL examination is 320.30 euros**

**Price for a psychological examination is 200.00 euros**

**Please note: invoices are edited by our aeromedical centre exclusively, so do not consider bills sent by any other doctor, hospital or laboratory.**
